ALERSON MORALES

Junior QA / Software Tester | Python

Uruguay | 100% Remote | moralesalerson@gmail.com

PROFESSIONAL PROFILE

Junior software tester seeking 100% remote opportunities.
Hands-on API/input validation, regression checks and unit testing.
Independent practice; no commercial QA tenure is claimed.

INSPECTABLE TEST EVIDENCE

Python HTTP API: errors, replay/conflicts and unittest cases.
Python CSV: malformed rows, duplicates and unsafe exports.
JavaScript lab: browser scenarios with deterministic results.
React portfolio: CI, browser and accessibility checks.
Two business websites completed; references not yet public.

TESTING SKILLS

Functional testing, exploratory checks, regression and bug analysis
Python unittest, JavaScript tests, API basics, SQL and Git
Input validation, boundary cases, browser and accessibility testing

EDUCATION AND LANGUAGES

Technical upper-secondary diploma in Informatics, Uruguay (2025).
UTU diplomas: PC Operator Basic/Advanced; Informatics/Web Design.
Spanish native | English C1 | Portuguese intermediate.
